## Finest Future For Young Men Offered By The Navy Says Retired Commander

Holds Advantages Enjoyed By Enlisted Men Far Outweigh Those Offered Nation's Youth In Other Vocations

By C. E. RAPPOLEE  
Sierra Madre Retired Naval Commander

The Navy is building ships. Without men to man these ships they will not serve their purpose. The Navy now calls your attention to its needs.

The personnel of the Navy is composed mostly of young men. Those unacquainted with the service naturally want to know something about the life—what it requires of those who join, how they live, the compensations and rewards.

In the first place the Navy is a great training school—training not only the hand and brain to perform a technical task, but in development of men to stand on their own feet. Men who serve but a single enlistment and who receive an honorable discharge have little difficulty in securing employment for that discharge is recognized by employers as a badge of merit. And all the time the man is earning this prized Badge of Merit, he gets three square meals a day, free dental and medical care, pay twice each month, training in an interesting line of work, plenty of time for study, and an experience that will fill memory's pages with scenes and incidents that will be treasured all one's life. And in addition to the foregoing the government gives to each newly enlisted man his outfit of regulation clothing.

In times like the present when danger threatens our institutions true men are stepping forward ready to defend a proud heritage. The Navy offers a field of action second to none.

Not merely for the duration of an emergency, or a first enlistment, is the Navy a desirable place. Many men find the life so satisfactory and the advantages so outweigh those found in Civil life, that they continue on. In such cases each succeeding enlistment brings an increase in pay. Each succeeding enlistment makes surer the path to positions of greater responsibility at an ever increasing pay. The recruit who looks about him will find on each rung of the ladder of authority men who started from where he stands, each passing through the petty officer grades up to Chief Petty Officer; from that grade to Warrant, and from that to Commissioned Warrant. Such men have earned their positions; they have proved their ability as leaders of men.

Every man has a place to sleep, a place for his clothes, a certain time for work, a certain time for play. The food is of the best and plenty of it. The menu varied and on holidays there is a "spread" pretty much as in homes ashore. In peacetime and when in port regular liberty is granted, usually from Saturday noon until Monday morning. Each man will know when he leaves the ship the hour when he must be back on board. Order, cleanliness, honesty, truthfulness, are cardinal principles.

The longer the service the greater the rewards. At the end of 20 years service enlisted men can transfer to the Fleet, Reserve and receive a large percentage of their active duty pay. If they put in full 30 years they receive three-fourths the pay of their last active rate plus a liberal allowance for quarters, fuel and light. Look about you and see how many you can count in civil life who, at 50 years of age, can retire with an assured income comparable with that of those who serve 30 years in the Navy. The Navy will win hands down.

To sum up: In the Navy you are assured of food, clothing, shelter, medical care, dental treatment, good pay, vacations (with pay), life insurance at Government rates, free schooling, chance to learn any of 45 good trades, advantages of travel, a pension if injured or disabled, transfer to the Reserves after 20 years or retired pay after 30 years.

Count them up and make your decision now—your Navy needs you.

## CITY TO RESTORE EFFICIENCY OF SPREADING GROUNDS AS WINTER RAINS START

Routine inspection of flood control equipment within the county brought a crew of men from the County Flood Control department into Sierra Madre Canyon this week to open the entrance to the water department tunnel. In order to inspect the concrete plug in the tunnel, debris at the entrance will be cleared away and shoring replaced. Materials will be furnished by the city and all labor by the County Flood Control, the work to be completed before winter rains begin.

## Roll Call Of Red Cross Off To Good Start

Totaling of Red Cross Relief Drive collections Wednesday morning revealing that Sierra Madre has already subscribed over 60 percent of its 1000 Roll Call quota. Members totaled 648, while collections were \$568.

Favorable response of town-folk indicates that people are aware of the broadening responsibilities of the Red Cross, and the possible emergencies which the organization may be called upon to discharge during the coming months.

This week members of the American Legion began sewing khaki bags, and making sewing kits for the 12 Christmas kits which will be sent from the local chapter to headquarters for distribution at one of the Army Hospitals or at one of the remote island defense posts. Girl Scouts will fill the kits which will contain writing materials, a diary, cards, toilet articles and a jack knife. This work will be completed within the next few days so that shipment may be made on time.

Women who realize that first aid knowledge becomes increasingly necessary daily, are asked to enroll for day time first aid classes which will be conducted at Red Cross Headquarters by Dr. W. B. Heagerty.

## Bishop Gooden Is Guest Of Church Of Ascension Guild

Bishop Gooden of the Los Angeles diocese of the Episcopal church was guest of honor at a dinner given last Wednesday night by the St. Catherine's Guild of the Church of the Ascension in the parish house to over 100 members of the parish. Following the dinner Bishop Gooden, Rev. John Neal and Dean Bode, rector emeritus, spoke to the parishioners and conducted a short business meeting.

## Noted Harpist To Play For Women

The program for the next tea meeting of the Sierra Madre Woman's Club at 2 p.m., November 26, will feature Miss Catherine Julie, a well-known harpist, which will present an interesting program of classical and semi-classical music. Miss Julie has played in New York Symphonies and was soloist with the Denver symphony.

## Maniacs Setting Palm Trees Afire Break Loose Again

Palm tree fire bugs went into action again Wednesday night setting fire to four huge trees in widely separated districts in less than an hour. The first alarm was sounded about 9:30 for a tree burning at 300 East Sierra Madre Blvd. Before the fire department could return to the station another was blazing directly across from the city hall. Third fire came a few minutes later when a tree flared within 10 feet of the J. C. Dickson home and the fourth around 10:30 at Mariposa and Park avenues.

This is the first outbreak of this kind of vandalism since Halloween when seven fires were set. Patrols were kept about town for several hours, and many members of the State Guard remained at the city hall until long after the last alarm was sounded.

## Thanksgiving To Be A Day Of Feasting

While many Sierra Madreans planned to go out of town to celebrate Thanksgiving with relatives or friends in neighboring cities, the majority are remaining at home, arranging traditional dinners or joining friends in combined family celebrations. Several young Sierra Madreans away at school have returned for a holiday, while furloughs have been granted to some of the boys in service. Everywhere the traditional spirit of American Thanksgiving prevails.

Mr. and Mrs. F. W. Miles and family of 298 West Highland avenue, have as Thanksgiving dinner guests Rev. and Mrs. Frederick Groetsema and daughters, Alice and Judy, Miss Dorothy Johnson, Mrs. Florence Wilhelm and Bob Miles.

Mrs. O. M. Hare of 297 West Highland, is a Thanksgiving dinner guest of her daughter, Mrs. John Hora, in Altadena.

Mr. and Mrs. Joe F. Hutak of Bella Vista Ter., planned their Thanksgiving dinner to include their mother and father, Mr. and Mrs. R. J. McLeod of Los Angeles, and Mrs. Maude Crawford, also of Los Angeles.

Mr. and Mrs. C. W. Jones of 49 East Alegria are spending the weekend in Laguna Beach with their daughter and grandson, Mrs. Hudson Proctor and son Philip, having Thanksgiving dinner with the Proctors.

A Thanksgiving dinner given Sunday instead of Thursday, enabled members of the R. P. Jennings family to be present for a joint celebration they otherwise would have missed, owing to conflicting engagements. Gathered at the Jennings' home on 410 N. Michillinda, were Mr. and Mrs. Robert Jennings and family of Redlands, and Mr. and Mrs. Roger Del Mar and family of San Gabriel.

Mr. and Mrs. Kenneth M. Bush of 220 North Sunnyside avenue are guests of their uncle and aunt, Mr. and Mrs. A. N. Farley of Arcadia, for Thanksgiving dinner.

Capt. and Mrs. E. G. Everett of 68 Vista Circle drive, are Thanksgiving dinner hosts to Mrs. Everett's sister and brother-in-law, Mr. and Mrs. H. S. Wright of Long Beach.

Mrs. William J. Colligan of 102 East Mira Monte is in Idyllwild for Thanksgiving with her sister, Mrs. R. A. Stumm. Mrs. J. Borradaile is also a guest of Mrs. Stumm.

Thanksgiving dinner guests of the E. B. DeGroot's of East Orange Grove are Mr. and Mrs. E. B. DeGroot Jr. and son, E. B. DeGroot III, of Riverside, and Miss Barbara Miller of Balboa.

Mr. and Mrs. Steve O'Donnell of 733 West Grand View, are dinner hosts to Mr. and Mrs. Emil Smith and son Raymond.

A traditional Thanksgiving dinner at grandmother's will be enjoyed by the Richard Patterson family as guests of his parents, Mr. and Mrs. C. W. Patterson of Ventura.

Mr. and Mrs. W. J. Miller of 67 West Highland avenue will entertain Thursday with a family dinner attended by Mr. and Mrs. Al Miller, Mrs. J. Neal and son, Keith Neal.

Mrs. E. G. Solury of 527 Manzanita is Thanksgiving Day dinner hostess to her mother, Mrs. Annie Rowley, Mr. and Mrs. Otto Brock and daughter Louise; Mr. and Mrs. Walter Brock and son, and Mrs. Coffee, all of Pasadena; Mr. and Mrs. Dale Langley and Tom Solury, Jr.

## Striking Model For City's Rose Parade Entry Wins Committees Approval

Huge Globe Showing World At War As Americas In Peace Depicted

"The World Today"—a huge globe with most of its surface engulfed with the flames of war—just the Americas at peace and presenting a unified front for defense of the western hemisphere—this will be Sierra Madre's entry in the 1942 New Year's Tournament of Roses, for which the theme is "America in Flowers."

Alfred J. Dewey, who appears to have designed another prize winning float for Sierra Madre, calls it a cartoon in flowers, for which 75,000 individual blossoms will be needed. For months Mr. Dewey has been working out details for the final model which was completed this week and shown to members of the float committee who met at his studio Wednesday afternoon to make plans for the float campaign.

The dramatic theme will be worked out with intermingled calendulas and red geraniums covering most of the globe. From this bed of fire sweeping flames will arise. The Americas will be represented in white chrysanthemums bordered by the blue Atlantic and Pacific achieved with corn flowers. In front of the Americas, resting on the bed of the float a huge cannon will be placed, by which will stand Liberty, representing North America, and a Spanish Senorita for the southern continent. These girls will be selected by the float committee.

The body of the float will be decorated in yellow and rust chrysanthemums, with purple toned chrysanthemums in sweeping plumes to the rear.

Sierra Madre gardeners have long been praising the adaptability of the geranium, and its gratifying response to cultivation. They are now being asked by the float committee to redouble their efforts to secure blooms on red flowering types so that there will be an ample supply available.

Calendulas also grow well in many Sierra Madre gardens, as do white chrysanthemums which are often abundant. Plumes of the Pampas grass, covered with geranium petals will be used to represent swirling flames, so these also will be needed by float decorators.

The planned float will be 32½ feet long; 14 feet wide, 15 ft. high. The globe will be ten feet in diameter and the cannon 11 ft. long.

## Snow On High Peaks Drops Temperature

Ideal Thanksgiving weather conditions prevailed this week as the mercury took a sharp drop bringing crisp bright days and cold nights following a light snow fall in the high mountains Sunday.

Temperatures as recorded at the central pumping station showed a maximum drop of 18 degrees since Sunday when the mercury went up to 83. For the week readings have been:

	Max.	Min.
Nov. 13	76	55
Nov. 14	73	51
Nov. 15	81	52
Nov. 16	83	51
Nov. 17	68	54
Nov. 18	68	42
Nov. 19	65	40

## THREAT TO AMERICA

LEADERS of the Railroad Brotherhoods have raised above the American people the club of a general railroad strike. Last week they made their announcement. In effect, this announcement said: "Grant our demands for increased wages, for other conditions we tell you we want—appease us, satisfy us, or we walk out and paralyze the railroads of Continental United States."

THAT strike threat is a threat to destroy America. It is a threat to paralyze the defense program and disrupt American life more swiftly and completely than all the armies of Hitler were these to land en masse on our coasts.

RAILROAD Labor has flung into the face of Franklin D. Roosevelt—the most lenient President toward Labor, the most labor-warm and business-cool President in history—a challenge to his authority and his duty as President of the American People.

THAT strike against the sovereign people of the United States of America cannot happen. The men who have called that strike in defiance of the United States—anywhere on the globe in any era, the law that makes them the wage aristocracy of all the world's labor—must be rebuked.

For the President of the United States to prevent this strike by appeasement would be for him to abdicate his dignity as Chief Executive. No power, in Europe or America, can yet dictate to America. This strike can not happen here!

## Former Business Manager Back From Long Lecture Tour

Former City Business Manager Al S. Myers returned to Sierra Madre Monday after an absence of approximately 11 months. The early part of his absence was spent on a ranch owned by himself and his brother in Oregon where he prepared for a lecture tour on the Constitution of the United States and the Bill of Rights. Later he toured the northwestern country lecturing on these subjects before various organizations and at public meetings and will deliver similar addresses in Southern California communities.

## Services Held For Josephine Curtis Of A Noted Family

Requiem eucharist was conducted by Rev. John S. Neal Wednesday morning at the Church of the Ascension for Miss Josephine Curtis who passed away Sunday night at her home, 233 Santa Anita Court following an extended illness. Interment at San Gabriel cemetery followed the service.

Miss Curtis was the daughter of the late Mr. and Mrs. Mathew Burchard Curtis, St. Louis philanthropist and first cousin of John J. Curtis, St. Louis philanthropist and first cousin of John J. Curtis of the Curtis Publishing Co. She was born in St. Louis and maintained homes in Syracuse and Lake Cayuga, New York, for many years.

her charities among young people and was affectionately known as "Aunt Jo" to hundreds of University students.

She had traveled to all parts of the United States and Canada before coming to California 10 years ago to make her home with Mrs. Clara H. Bolms, Miss Rosalie Curtis and Miss Mildred Curtis Bolms, former member of the NEWS staff, at their San Fernando Valley ranch home. Besides relatives with whom she made her home, Miss Curtis is survived by a sister, Mrs. Marion Hartman, of St. Louis, Mo.

## Noted Actors To Speak At Wistaria Gardens Sunday

James Gleason, known throughout the world as one of the most brilliant members of the American screen, will come to the Wistaria Vine Gardens Sunday evening to speak on a program sponsored by the Hollywood Stage, Screen, Radio and Arts Division of the National Fight For Freedom Committee.

Adding to the interest of the evening will be the appearance of George Houston, stage and screen actor who with Richard Lert will present Mozart's Marriage of Figaro at the Pasadena Civic Auditorium, Monday evening, December 1. Mr. Houston will present Virginia Card, soprano of the production in a group of arias from the opera, and will speak briefly of the aims of the Opera Associates of Pasadena.

James Girdilian promises a short garden forum keyed to autumn planting problems.

## Pasadena's Suit To Limit Water Supply Of Valley Towns To Be Settled

State Sustains City's Claim Its Source Is Separate From Basin Crown City Draws From— All May End In Agreements Out Of Court

By COUNCILMAN PAUL CARTER  
Chairman Water Committee

Possibility of settlement of the four year old litigation involving Sierra Madre as one of 22 defendants named by the City of Pasadena in her claim to 14,400 acre feet of water annually from the Raymond Basin looms as the result of a conference held in Pasadena city council chambers Friday morning.

Chief Engineer Edward Hyatt of the state division of water resources served as chairman of the conference which was attended by representatives from all municipalities named in the suit. Sierra Madre was represented by City Attorney Walter Dunn and Councilman Paul Carter, water committee chairman.

From information presented in the 350 page preliminary report of the State Division of Water Resources, Sierra Madre appears to be in a preferred position with its full rights protected. The report upholds Sierra Madre's contention of several years ago that an impervious division exists between the Santa Anita sub-basin and the western or Pasadena sub-basin, effectively sealing the city's water producing gravels from those of the Pasadena Area.

It was further shown that the Pasadena area has annually overdraw approximately 8000 acre-feet of water.

A steering committee of seven, representing all factions was selected to work out a solution of this problem. The four general proposals presented were the importation of outside water for direct use through mains; conservation of storm run off; use of Metropolitan water district water or conservation of San Gabriel excess water.

The San Gabriel proposal was presented by Councilman Carter, who advocated use of Pasadena's 36 inch main connecting with Morris Dam in the San Gabriel to transport surplus water now available as a result of operation of the series of San Gabriel flood control dams to the Eaton Canyon wash district for percolation in the depleted Pasadena area.

This arrangement would envisage conservation of water in the Pasadena basin now proving a liability due to the exceedingly high water levels in the El Monte area of the San Gabriel basin—and would only be operative during periods when excess water was available in the San Gabriel river basin and without prejudice to their rights.

Chief Engineer Hyatt disclosed that total cost of engineering tests and preparation of data pertinent to equitable adjustment of the suit has already exceeded \$50,000, which will be equitably distributed among the litigants.

## Xmas Season To Open Here December 6

Hostess Day At Stores Ushers In Event As Streets And Stores Are Decorated

Launching the pre-Christmas season here the Sierra Madre Chamber of Commerce and the Woman's Club will join in sponsoring Hostess Day, Saturday, December 6. At this time Christmas displays will have been completed in the stores, and townspeople will have an opportunity to inspect wares of local merchants before doing their shopping.

Members of the Woman's Club will accept the duties of hostesses in shops and the entire day will be motivated by hometown friendliness.

Christmas decorations as planned by the Chamber of Commerce indicate that Christmas trees in tubs will again line Sierra Madre Blvd., Kersting Court and Baldwin avenue in the downtown section. Strings of Christmas lights around the Pacific electric station triangle will make a bright spot in the center of the town. During Christmas week, Richard Welles will install an amplifier at the city hall, and broadcast Christmas carols and anthems each afternoon and evening.

## No Sierra Madreans In New Draft Call

No Sierra Madre men are included in the list of selectees designated for the 19th call from draft board 191 at Monrovia. Of the seven who have been called up for induction December 1, four are from Monrovia, one now living in Colton and one in Fort Worth, Texas.

FOR 36 YEARS  
this newspaper has been devoted to the welfare of Sierra Madre. It is home owned and has no other interest.

## Many Artists Exhibit In Art Week

Sierra Madre's participation in National Art Week is noteworthy again this year, with practically all members of the local art colony exhibiting in at least one of the shows about town.

Approximately 50 oils have been hung in the council chamber of the city hall, and are attracting visitors from a wide area. This group is representative of the best recent work of Alfred Dewey, Bernard Wynne, Helen Hawley Narozny, Wesley Nightingale, Catherine Wynne, Lawrence Suman, Myrtle Weese, Beatrice Ward McIvor and M. Stanton. Portraits in the exhibit are by Mrs. Narozny, Suman and Mrs. McIvor who is showing her recently completed likeness of Mrs. Boyd E. Keith.

Wesley Nightingale, son-in-law of Mrs. C. A. Allen, whose spring show at the Wistaria Vine Gardens created much favorable comment is represented by four small distinctive pictures with an Oregon background.

Landscapes predominate in the paintings by Alfred Dewey at the city hall, while some of his most notable character studies have been hung in Jim Irving's Grill. Walls of the Dewey's studio have been hung with water colors by Catherine Wynne. Mrs. Tuttle's exhibit of water colors at the Wistaria Vine Gardens, continues through the week.

Friday an additional exhibit will soon open at the Woman's Club House at 10 a.m., and continue until 10 p.m. From one until four in the afternoon Mrs. Tuttle will demonstrate water color painting, and Mrs. Narozny will make an oil sketch of Mrs. Nathan Jacobs. In the evening from 8:15 until 9 Mrs. Narozny will give an illustrated talk on color in its relationship to music, assisted by Clara Wilson, musical missionary who will speak on music as a means of healing.

Final observance of Art Week will close with a reception at the City Hall from 3 until 7 o'clock Sunday.

## Arrange To Observe Bill Of Rights Anniversary Here

Placing Sierra Madre among cities which will officially observe the Sesquicentennial anniversary of the addition of the Bill of Rights to the American Constitution, December 15, Mayor W. J. Schiltz Tuesday evening appointed Mrs. Waverly E. Pratt, president of the Sierra Madre Woman's Club, chairman of the Sierra Madre Committee which will arrange a ceremonial dinner at Wistaria Vine Gardens.

Heads of all local organizations will be asked to participate and an invitation to all Sierra Madre citizens has been extended by Mrs. Pratt. Joe Craik, chairman of the Southern California committee, gives assurance of an impressive speaker, and a short musical program may develop later when the arrangements are concluded.

Joy Embree, Marjorie Peterson, Ornelia Stinman, A. H. Embree and Misses Jessie Southers and Minnie Stinman.

## FRANK COX AND HARRIET BUCKINGHAM TO WED

Although the exact date is as yet unrevealed, the wedding of Mrs. Harriet Buckingham and Frank E. Cox will take place during this weekend. Announcement of the approaching marriage was made early this week.

Mrs. Buckingham and Mr. Cox are both well-known residents of the community, having been associated with local business for many years. Mrs. Buckingham came to Sierra Madre in 1921 and during the same year joined the staff of the Sierra Madre Hardware Co. as bookkeeper, a position which she will retain after her marriage. She is past matron of Sierra Madre Chapter O.E.S. Mr. Cox has made his home here since 1919 and has been associated with the Sierra Madre Hardware Co. for the last 18 years. Following their marriage, the couple will continue to live in Sierra Madre.

## Tiny Tots Now Have Store All Their Own

Tiny Tots have a shop all their own with the opening of Elgin's, the Children's Store, at 30 North Los Robles, Pasadena.

Owned and managed by James H. Elgin Jr., the store will have a \$20,000 stock of clothing and toys for infants and youngsters up to school age.

Assisting Mr. Elgin in managing this new store, is Mrs. Marie Roland, formerly of Detroit, where she held a position as buyer for a big department store, and consequently is well acquainted with eastern markets.

In addition to its large and well selected stock, Elgin's has installed modern equipment for the convenience of busy shoppers.

## NEW SAROYAN PLAY AT THE COMMUNITY

National premiere of William Saroyan's latest brainchild (or storm) come to Pasadena Community Playhouse November 25 to December 6 as the Playhouse joins with 45 other theatres across America in presenting "Jim Dandy." There is abundance of comedy, scenes that strike deep tones on the emotional strings and brisk novelty that adds to entertainment. "A Riddle for Mr. Twiddle" ends its present run at the Playhouse on Saturday, November 22.

## MOVIE STAR JOINS U.S. NAVY

Ensign Wayne Morris Seeks Wings

Wayne Morris, recent star of "I Wanted Wings," became a member of Uncle Sam's Navy in May, 1941, when he was appointed to the rank of Ensign.

When asked what he thought of the United States Navy, Morris said, "I think every man who is considering joining a military service should look into the 'chance of a lifetime' which the Navy and Naval Reserve offer to get into the big-pay field of the future—aviation. In the Navy you can attend the finest flight training schools in the world, and receive in-

struction from Navy pilots who introduced dive bombing, aircraft carriers and catapult take-offs to the rest of the world. Also, there are opportunities in Naval Aviation for men who don't want to fly. They can be trained as aviation machinists, metal smiths, photographers, observers, or they can receive instruction in many other trades. It's a great life in the Navy."

Ensign Wayne Morris is pictured here in his line of duty as a member of the Naval Aviation Cadet Selection Board at the Long Beach Naval Reserve Air Base.

sister-in-law, Mr. and Mrs. Sidney Jewell of 560 North Hermosa.

Mr. and Mrs. Joe F. Hutak of Bella Vista ter., returned home via Big Pines, Sunday, following a weekend spent at their mountain cabin at Little Rock.

Mr. and Mrs. Massick and sons Leland and Neal of Huntington Park visited Sunday with Mr. and

Mrs. Richard Patterson of North Auburn.

Mrs. F. W. Schalos of Los Angeles, a former resident of Sierra Madre, was a caller Sunday at the home of Mr. and Mrs. Lester K. Layton of 291 East Sierra Madre blvd.

Weekend guests at the home of Mrs. Ross G. Marshall, 226 Olivera place, were Capt. and Mrs. Thomas Duffy of Chicago; Mr. and Mrs. Martin Rindall of Alhambra; and Mr. and Mrs. Kendall Benedict and children Frank and Marilyn of Los Angeles.

Miss Helen Tufts of Sioux Falls, South Dakota, arrived in Sierra Madre this week. She will make her home here during the winter months.

Mrs. W. E. McMillen of 44

West Carter, returned home Sunday from Manhattan Beach where she has been for the past two weeks.

## UNCENSORED

By LEONE BAXTER

"Uncle Sam may be putting money in one of your pockets but he is certainly going to take it out of another!" predicted Ralph H. Taylor, California farm leader, recently. "The idea that current gains in wages or incomes are evidence of 'good times' is just an illustration!" Judging from all the signs there is precious little time for illusion at this point. An emergency of one kind is with us, and on how that emergency is met will depend whether a greater, costlier emergency may arise.

Scarcely has the pinch of last summer's immense defense tax program begun to be felt in the grocery stores and clothes shops, at cigarette counters and movie wickets than the air grows thick again with new proposals to raise an additional five-billion-dollar levy! With a restless nation looking on, Washington fiscal experts are working against time and events to find bigger sources from which to draw the colossal sum!

How will the county as a whole take the new sacrifices bound to be required? How will it meet the coming emergency? The best answer to that is a survey of how it is meeting the present one.

While—in the name of national defense—plans unfold for new payroll levies upping the ante on both employees and employers, a dozen strikes rage in defense industries demanding higher wages and jurisdictional control, and in the shipyards men riot for salary increases from 12 to 15 dollars a shift. While Congress prepares new tax demands, business heads ponder and worry over how to cut corners to pay their present taxes. There is great bumping of heads and a great belligerence. There is frenzied fighting for individual gains and against individual losses. There is too little understanding between groups and "classes," and too much disregard for the welfare of the nation as a whole.

In a country faced with the necessity of preparing to protect itself from economic and social if not physical aggression, it would seem wise for men to stop and look around. To weigh what they see against the scene in every other country in the world. To measure its value to them and to their loved ones. And to prepare to pay for its defense as wholeheartedly as they know how.

Patriotic men can still believe the price need not be American blood. But intelligent men must concede that the alternative is surely sacrifice of every kind—of self, of position, of political advantage and personal gain—sacrifice of every nature that may aid the general welfare.

Unless we are willing to do without some of the luxuries of democracy, it is possible we may be faced with doing without some of the basic rights of democracy.

Defense priority ratings have been given to materials needed in the commercial manufacture of vitamins B1 and riboflavin.

## The.... Watch Tower

By Perley Poore Sheehan

BIRDS now coming down for the winter—from the high mountains, from the North. Making us gladder than ever that we live in Sierra Madre. All day long except for curious spells of a concerted silence—like those at night in a frog or cricket chorus—we can hear what must be a hundred birds. To remind one of an orchestra tuning up. All sorts of birds and all together: members of the dozen sparrow tribes; and warblers, wrens, titmice, nut-hatches, the small spotted woodpeckers (Nuttall's); their big California brethren have now moved on further south; mockingbirds, finches. And at least one robin—the only robin we've noted so far this season—or may note—since hereabouts they seem to be comparatively rare. But with other birds, vines and shrubbery aquiver from dawn to night. And a dozen doves forever lazily about. Until someone starts a stampede for the feeding-table.

TABLE like a miniature old-time dancing pavilion, reared breast-high on a couple of red-wood posts, out there against the shrubbery. Curious how the birds seem to forget it at times, then make it the center of a rush. Even the doves. But the doves more like Sunday-school teachers at a kids' picnic; not, however, that they're stand-offish either in the matter of food. For when doves do eat they gobble. But they're kind. Rarely you'll see a dove chide a smaller bird, no matter how greedy. Which a good many are. Just like kids. The more we watch these smaller birds at this their free-lunch counter—or candy-bar (for we set a pretty good table, thanks to the co-operation of our neighbor, Sierra Nuts)—the more they remind us of human children.

NOT too angelic. Yet winsome. The way two sparrows, say, will suddenly pop up squabbling, and then the fight all over as quickly as begun, the mad forgotten and no one hurt. English sparrows mostly—the bad little boys of this fairy world. Of which the crowned sparrow—the white-crowned or golden-crowned—rightfully holds, we sometimes think, the title of Prince Charming. These princelings now just arrived from their summer in the hills. Exquisitely groomed in gray, a touch of pink on their little beaks, impeccable manners, perfect poise. A lone nut-hatch, for example, will come up to the feeding-table as swift and furtive as a mouse. Not so your crowned sparrow. He'll be as smoothly at ease in his selection from a menu, even in the crowd, as if he had the table to himself.

SETTING up a myriad reflections—like those of repeating mirrors—back, back, back. How we ourselves had been rather on the nut-hatch side—back there in that old common fairy-land of birds and children. Then, that thing of Keats'—how "the poetry of the earth is never dead." Or, again, that saying of Hans Christian Anderson, that "Every man's life is a fairy-tale written by the finger of God." Or the deeper reflection—out of the East. This: That in each of us—and in Everything—there is a *Changeless Self* that is of God. Just now a passing thought while looking at these birds, unchanged since Eden—themselves an element of that deathless poetry Keats spoke of—deathless because sprung from our Earth's own Changeless Self—whose life as well is a fairy-tale written by the finger of the Lord.

AND so, on to St. Brendan. That part of his legend where this holy Irishman, in the course of his far roving, came to a Magic Island. Just as the sun came up on an Easter Sunday. And there he saw a great tree, not very tall but wide, and on its branches a host of snow-white birds. Then when the saint asked the meaning of this congregation, one of the birds joyfully came down to explain. How that when Lucifer and his angels were cast out of heaven they'd all come along—not as fellow rebels, but just as a sort of token of God's endless love. Remaining invisible, as spirits, most of the time since then, said the bird. Except on Holy Days, when they'd take this earthly shape and come together, the better to praise Him who'd given Life to the earth and made it so beautiful.

A GOOD thing, all this, maybe, to help us forget the War. As a man might, perhaps, pause to pray, even in the midst of war—as most of us here are,

## MARCH OF RIMES

By H. F. NOAKE

### RABBIT'S FOOT

Some folks are born with a rabbit's foot, as sure as sure can be, in support of this I offer as proof a recent near tragedy. While riding along on a broad highway that skirts a deep ravine, I came across an accident, the queerest I've ever seen. A car had just left its normal path and descended that dark abyss: a guard rail was broken and testified to an unwelcome, forcible kiss. I stopped and ran to peer over the side, expecting a horrible sight, but instead saw a car in a tangle of shrubs apparently whole, and upright. Beside it were standing three startled young men, neither maimed nor unconscious, nor dead; their clothes were quite spotless and strangest of all, not a sign that any had bled. Just how the thing happened not one could recall, all sober, (of that there's a doubt). Said one, "How we drove in this hole ain't the point, it how in hell can we drive out."

Only 22 months ago the Army had but 14,000 motor trucks. Now it gets twice as many each month, advises the Automobile Club of Southern California. Requirements already in sight amount to 300,000 units.

For lack of effective mediation machinery, and for lack of conviction that the situation is really urgent, a new surge of strikes on the labor front has stifled production at some of the most strategic points of the armament effort. If the situation is not urgent, if there is no emergency, then strikes in shipyards, coal mines or auto plants in no way affect the nation's military security and are no more deplorable today than at any time. This is the attitude of a few groups but it is not the view of the majority of the public whose mounting indignation reflects the conviction that they who tamper with defense production tamper with the nation's safety. The "boycott" of the Defense Mediation Board by the C.I.O., following a decision unfavorable to the labor organization, reflects a sullen and disturbing temper. If voluntary mediation fails to adjust disputes, some form of compulsory mediation will follow. America, to put it bluntly, doesn't want to go the way of all France.

Canada's housing effort has perked up considerably with the news that the Dionne family of Callander is going to build a new dwelling. After all, a structure that will comfortably accommodate 12 children and two parents takes quite a lot of house. But big home or little, a dozen youngsters under one roof sounds like a permanent housing problem.

Were the situation not so grim, loud laughter would greet the solemn assertions from Tokio that Japan is being driven to take drastic action by the "insufferable hostility" of Britain and the United States. It is now ten years since Japanese troops first invaded Manchuria and launched the campaign for a new Asiatic order which has been continuing down to the present day. During

anyway, and ever have been. For neither is there discharge in this War (which is life itself)—against the Hitler within. Not to forget War so much as just to remember now and then. Oh, many things. How that what the bird said to St. Brendan on the Magic Island may be equally true of all birds whatsoever; with every day a Holy Day; and that this whole earth may be a Magic Island.

P.S.—Due to we don't know what, last week we spoke of the new Russian ambassador as Molotov instead of Litvinov. Sorry.

guide the activities of a vast network of Nazi organization. A well organized advance guard of disciples and sympathizers has more than once proved to be the Nazis' "secret weapon" in achieving the downfall of their adversaries. Luckily, that weapon is scarcely a secret any longer either in South America or the United States.

## No, No, November BACK EAST

By Ogden Nash

Thirty days November hath,  
Unfit for human living,  
Including one Election Day  
And a double-yolk Thanksgiving.  
An encouraging month November is  
For burglary and mayhem;  
It's night for most of the afternoon,  
And P.M. most of the A.M.  
There may be virtues in November,  
But if there are I can't remember.

## SEE SHIP LAUNCHED

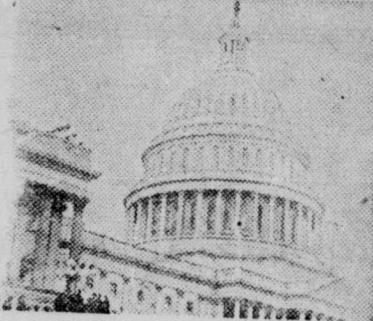

Mr. and Mrs. M. T. Gardiner of Topsiside, were present at the Terminal Island yards of the California Shipbuilding Corp., Sunday, for the launching of the S. S. Benjamin Franklin, a 10,500-ton cargo ship. Miss Dorothy Barnes of Washington D.C., sponsor of the vessel, was the Gardiners' houseguest for a week.

## New Shock Coming For Motorists

Motorists will begin to feel the effects of the new federal tax on motor vehicles when they first pay the \$5 use tax next year. J. Allen Davis, general counsel for the Automobile Club of Southern California, offers the latest information on the taxes to clarify the requirements for Southern California motorists.

The new tax calls for payment of \$5 by the registered owner yearly for the use of motor vehicles upon highways. It will not apply prior to Feb. 1, 1942. On new vehicles first used after July 1, the tax is to be prorated to the next June 30.

Payment of the tax will be evidenced by a suitable stamp or some other device to be determined by the commissioner of internal revenue. Manner of collection will be prescribed later. When tax is past due and remains unpaid, the registered owner is guilty of misdemeanor and subject to a fine.

## What They Say ---

Deanna Durbin, discussing beauty secrets—"First of all, my appearance is a reflection of my feelings. I'm 19—in love—happily married."

Alexander Scourucov, Soviet consul general at San Francisco—"We Russians are not optimistic. We are not pessimistic. We are simply sure we are going to beat the Germans."

Dr. William B. Herms, University of California—"The people of the United States are now supporting more than 250,000,000 rats at an annual cost of from 50 cents to \$2 per rat."

James F. Bell, flour and cereal manufacturer—"The heart of a nation lies in its industries. The American industries are owned by the people, as evidenced by the 65,000,000 life insurance policy holders and the 18,000,000 stock holders."

Rear Admiral Charles A. Blakely, in command at San Diego—"I fully intend to see that certain San Diego labor leaders do not bludgeon the United States Navy!"

From 45,000 to 50,000 people are employed in the 1,100 to 1,500 citrus packing plants in the United States, according to recent preliminary reports by the U. S. Department of Labor.

### As It Appears To me

Thanksgiving comes along and people who spend most of the year wishing for a better car, better home, better clothes and on almost without limit—suddenly take a right about face and decide to be thankful for their previously undervalued blessings for a whole day. What a race! Our expressions of thanksgiving are almost as pathetic as our wishes, mostly material... and to my mind largely beside the point considering that all we really have to be concerned with is the condition of our own soul.

Somewhat it seems slightly indecent for us to give forth loud exclamations of gratitude because for the moment we have more material comforts than some of our world neighbors. Somehow it seems questionable whether we should ever be thankful for prolonged security.

Looking at myself I know that mostly I am thankful for insecurity and the experiences which it has brought me. So when I wake up Thanksgiving morning I am going to be thankful for a lot of things which haven't much to do with material blessings. In the beginning I'm going to be thankful for early life and ancestry which conditioned me to love music, poetry, books, the out-of-doors and people; but if there are any prayers of thanksgiving offered they will be for the hard knocks, rough going, times of near desperation and general insecurity which have brought me close to life. I'm going to be thankful that life has cuffed me a bit, popped my eyes open to see a lot of things which I don't like... left me standing in mid air with nothing much to hang on to, and so saved me from being a snob.

Then off in one corner of my mind there is going to be a special "thank you" for all the local dears who spoil me beyond reason. Buy coffee for me, argued with me, tell me I'm hope-

lessly muddled, call me stubborn, but stop on a hill to pick me up when I'm walking, give me a ring to make sure I've heard the latest news... refuse to notice some of my pet projects... support no end of bother for me and then toss it all off with a careless "think nothing of it." Oh, yes, I shall also be thankful for those of you who bark into the editors ear that you are cancelling your subscription because I failed to get something in the paper. For you help keep my feet on the ground!

This is a day when I deliver a message to all of you who may be thinking that Edith Woodruff has gone high hat on the home folks. On good authority I learn that one much overworked secretary has been having all she could do, taking care of the business of a South America roving congressman. So if you have been feeling hurt and neglected that's why.

### New Englanders Buy Beautiful Sierra Madre Home

Dr. and Mrs. W. H. Scoins this week sold their 14 room home at 214 West Carter avenue to Mr. and Mrs. A. R. Porterfield of New York and New Hampshire.

Mr. Porterfield is retiring from the executive office of the accounting firm of Haskins and Sells. The new owners will take possession of their Sierra Madre home around December 15. They have one daughter, Lucie Anne, who graduated from Vassar in 1939 and from Columbia University this year. For the present Miss Porterfield will continue to make her home in New York.

Plans of Dr. and Mrs. Scoins are uncertain at present. Sale of their home was complete through the N. M. Mesecar real estate office.

### BOYS FROM ARMY CAMP ARE DINNER GUESTS

Four boys from Army camps, unable to go home for Thanksgiving dinner were guests Thursday of Mr. and Mrs. Herman Langraff of Arcadia, as were Mr. and Mrs. William Burr and family and John J. Morris and family of Monterey Park.

## YOU PAY FOR VITAMINS

-don't let improper cooking destroy them

## WHAT EVERY WOMAN SHOULD KNOW ABOUT VITAMIN-SAVING

- 1 Use little water in cooking.
- 2 Cook vegetables for the shortest possible time.
- 3 Cover utensils to keep air out.
- 4 Avoid unnecessary stirring of vegetables.
- 5 Don't pour in baking soda to brighten food colors.
- 6 Start vegetables in boiling water.
- 7 Don't throw away vegetable liquids—use them in soups or cream sauces.
- 8 Keep foods as fresh as possible—use dependable automatic refrigeration.
- 9 Serve plenty of green vegetables.
- 10 Serve foods soon after cooking.
- 11 Broiling is preferable to frying to retain vitamins.
- 12 Low-temperature roasting saves vitamins, minerals.

### COOK THE VITAMIN-SAVING WAY—WITH A CP GAS RANGE

TO HELP "DO YOUR BIT" toward building your family's health, serve well balanced, vitamin-rich meals. And, of course, it isn't enough just to select the right foods at the market. For many of the health-giving vitamins may be lost later, through improper cooking.

LET A CERTIFIED PERFORMANCE GAS RANGE help you avoid vitamin waste. Better broiling is among the advantages a CP gas range brings you. Beef, lamb, fowl, ham or fish—you'll turn out finer dishes! One reason is that the CP broiler, unlike other kinds, requires no preheating. There's no hot broiler grid to "fry" the underside of the meat while top side is being broiled. For full information about this and other important features of CP cookery, see a dealer or SOUTHERN COUNTIES GAS CO.

### THREE OF THE WAYS A CP GAS RANGE WILL HELP YOU SAVE VITAMINS

- 1 VITAMIN-SAVING BURNERS. Simmer settings make possible "waterless" cooking of vegetables, recommended by vitamin authorities.
- 2 VITAMIN-SAVING BROILER. No preheating necessary. Meats retain more vitamin-rich juices, because cold-start broiling enables you to broil the portion nearest the flame, without overcooking the under side.
- 3 VITAMIN-SAVING OVEN. CP controlled heat enables you to roast meats with minimum of water, and yet avoid drying-out. Low temperature CP roasting also enables you to reduce meat shrinkage as much as 20%.

100 HEALTH BENEFITS  
Save Vitamins  
WITH A CP  
**GAS RANGE**

EVERY CP GAS RANGE is styled to the minute—a kitchen marvel you'll always be proud to show. You'll have more leisure, too, with a CP gas range. Giant-sized burner is super speedy. Automatic oven control eliminates personal supervision. Lighting is automatic throughout. Range keeps cleaner, thanks to fewer boilovers, smokeless broiling and easily wiped porcelain finish. And it costs, on the average, only 1/4 as much to cook with gas as with the next-best method.

## PLANTS FROM THE PHILIPPINES TO ADORN LOCAL GARDENS

Though largely responsible for the safe passage of Pacific Clipper planes between here and the Orient, Lester Fennel, meteorologist for Pan American Airways, stationed at Cavite, Philippine Islands, finds time to conduct an extensive study of native plants which may be introduced into Sierra Madre gardens.

This week Mrs. W. J. Lawless received a letter from Mr. Fennel, former Sierra Madrean, stating that a shipment of Philippine seeds will be sent to Wistaria Vine Gardens, his former home, as soon as a permit for their entry into this country is issued. Mr. Fennel is now investigating the growing requirements of certain Philippine fruits from which he may send seeds later. These include Philippine papaya and an island fruit known as the atis.

Included in this first shipment will be 8 medicinal shrubs and trees; the Iland-Ilang, a medium to large sized tree whose flowers are a source of essential perfume oil; two types of flowering ginger and six flowering trees including the pink shower Cassia grandis, the Brazilian fire tree, the golden shower cassia fistula and the "Dap-dap," a large tree producing red flower when the tree is leafless.

All the seeds have been collected by Dr. Valenzuela of the

shall certify to the adoption of this Ordinance and shall cause the same to be published once in the Sierra Madre News, a weekly newspaper published and circulated in said City of Sierra Madre and thirty days from and after the final passage thereof, the same shall take effect and be in force.

The foregoing Ordinance was adopted at a regular meeting of the City Council of the City of Sierra Madre held on the 28th day of October, 1941, by the affirmative vote of at least three Councilmen, to-wit:

AYES: Councilmen Miller, Carter, Froehlich, Schwartz and Schiltz.

NOES: None, and signed and approved this 28th day of October, 1941.

## What's Going On At The Grammar School

AS TOLD BY THE PUPIL-REPORTERS

Miss Lusted's Art Classes: The eighth grade art club is carving, modeling, paintings, and lettering in class. Each child is going to make one present for Christmas.

The upper classes have sketched their own homes and painted them. The children are thinking up Thanksgiving ideas to paint or color. Some of the upper classes will make posters, decorations, and cards. The art classes and schools appreciate very much the exhibition that Mrs. Narozny arranged in our school cafeteria. Miss Lusted has started a collection of carvings from different junior high schools. The eighth grade girls are pleased with the ribbons awarded them for their flower arrangements at the Congregational Church flower show.—*Dorothy Chum.*

Miss Hank's 7A Class. Pupils of the 7A class are making inventions ranging from drinking cups to airplanes. They plan, if their inventions work, to send them to Washington D.C. for patents. Some of the inventions are—new types of drinking cups, combs, weenie roasters, and airplanes. The inventors plan to make models of their inventions. Each person in the class made a report of one of the New England states. The pupils each drew a map of the state they reported on. While one person was giving his report, the rest of the pupils in the class were taking notes on

it. After all the 13 reports had been given, the teacher, Miss Hanks, gave the children a test on them.—*Vera Swanson and George Tyree.*

Mr. McElfresh's 7B Room: In the past week we have had the following reports on aviation: "American Airlines," by Velma Pickett; "Airlines Away from the United States," by Geraldine Ward; "Planes that are no Longer Used," by Betty Garrison; "What Planes Carry," by Paul Worthington, Lois Wood, and Walter Richter, and "Controls of a Plane" by Ray Hinkley and Jerry Brown. We also had "Gliders" by Donna Mae Benne. Every two weeks the children in Mr. McElfresh's class give a book report on books they read.—*Dorothy Chum.*

Mrs. Wheeler's 5A-6B Room: We are studying about Egypt and Babylon. We have learned what the houses were made of and how the Egyptians made their clothes. We have also learned how before the dam at Aswan was made, the Nile would overflow and give the field along its banks plenty of water and rich mud. We hope to learn much more about the ancient and modern Egyptians. We have just started studying Babylon and it is very interesting. We are planning a trip to a museum to see the Egyptian and Babylonian exhibits.—*Cullen Sabin.*

Mrs. Gardner's Class: Our class showed fine spirit by giving two dollars to the Junior Red Cross. Only 50 cents is required for a class to join, but our class didn't stop there.—*Mrs. Gardner.*

Miss Newton's Room: We finished our pottery bowls this week. We are going to send them to the kiln to be bisquit fired and then we will paint designs on them. Everyone in the room has made a poster on consumer education. We used calamine, crayons, oil paints, and india ink for the pictures and printing. How happy we were to finish them and hang them on the wall.—*Geraldine Mitendorf.*

Mrs. Adams' Class: First we went to the Exhibition building in our trip we took the other day. Then we went to the museum. In the Exhibition building we saw a miniature of Boulder Dam and it had real water that worked like it does in the real dam. In the museum we saw stuffed buffalo and other animals and miniatures. Then we went to the city hall in Los Angeles, but it was closed.—*Betty Rowe and Nancy Tarr.* Miss Wones' Class: Laura Schreier has entered second grade. She comes from Arcadia.

Unity Meeting

Sierra Madre Park House

Miss Vesta Brown, Speaker

Every Friday evening at 8.

NEWCOMERS HAVE A

BABY DAUGHTER

Mr. and Mrs. Russell Dawson who recently arrived from Canton, Ohio, to make their home at 227 East Highland avenue, are the parents of a daughter born Tuesday, November 18, at St. Luke's Hospital.

A. L. A. Activities

We gathered at the home of

Mrs. Claire Moon on Thursday

evening for a very enthusiastic

Unit meeting, when all chairmen

gave splendid reports. Activities

for the past two weeks included

241 hours of community service

by Chairman Catherine Miller,

two benefit parties given by Leila Embree, and a school of in-

struction report by Helen Lovejoy. Report of the Camp Fire

group supervised by our Unit

showed six months of construc-

tive work with plans to remem-

ber all shut ins at Christmas and

Hospital Chairman Lotta Hopper

reported that she and her com-

mittee had decorated 23 tables

on Armistice Day at the Veterans

Hospital, San Fernando. President

Pickett distributed Red Cross

knitting among the members. An

interesting letter from our absent

member, Jessica Wright, at Deeth,

Nev., was read.

A social time followed the

meeting with delicious refresh-

ments served by the hostess. Our

next meeting will be held at the

home of Pres. Pickett on Thurs-

day night, November 27th.

Maybelle C. Barker, Press Chmn.

## Side Glances and Soliloquies

by Libby Trimble

Having much to be thankful for, but being unable to put my finger on specific things, other than the obvious reasons repeated word for word every year since the inauguration of the noble institution of being publicly thankful once a year for all privileges of which we so blithely take advantage ... I will skip, oh so lightly, over Thanksgiving, still licking my chops of course, and go on from there to less weighty subjects.

But perhaps I'm being too literal and skeptical, traits inherited no doubt from my grandfather who delights in recounting to various friends his first encounter with the story of Adam and Eve. It seems his mother had ambitions for him regarding the church. "Yes," he recalls, "she wanted me to be a preacher. I didn't particularly care one way or another but I thought I'd please her by reading the Bible. But when I came to the part about Eve having been made from Adam's rib, I closed the Bible, went over to our family doctor's home and asked to see some skeletons of a man and woman. I counted their ribs and when I found the man still had all his, I went back home and told mother I didn't want to be a preacher." And so ended a career all because of a literal and skeptical outlook.

I walked into Rikeman's yesterday and interrupted an impromptu can-can being done by Jane Holland for the entertainment of Mrs. Rikeman. Jane is one of the Floradora Girls in the Junior Woman's Club play. There was a good deal of coy kicking involved, and Jane found it easier to practice in the front of the store than among the packing cases in the store-room. Something new in the advertising field. Floor shows for tired shoppers.

To the delight of many Sierra Madreans, Peggy Brock appeared in the social column of the NEWS recently. Miss Brock's name was included in a list of guests present at an open house held at the Richard Welles studio. For the edification of those in ignorance I will explain that Peggy is a four legged friend of man and a frequent caller at the Welles abode.

## LETTERS from Readers

To the Editor of the

Sierra Madre News:

The purpose of observing National Art Week is two fold: to help the artists to sell their work so that they can continue to produce, and to make it possible for everyone to obtain pictures and other art objects at prices that are within their reach.

Good art is good art regardless of price, name of the artist or age of the work. The personality of the artist should be left in the background as much as possible. If you enjoy a work of art buy it so that you can continue to enjoy it—not because any particular artist painted it.

You hear much about the duty of the public to support art, but there is also the duty of the artist to try to lead the public to appreciate art in order that art itself may survive. So we artists of Sierra Madre are trying to do our part by hanging pictures in the school, the city hall, the Wistaria Vine Gardens and in the Woman's clubhouse, and our prices are in accord with the suggestions made by leaders of National Art Week project—they range from \$5 to \$75.

Sincerely,

HELEN HAWLEY NOROZNY,

Former art instructor, North

Central College, Ill.

## GIRLS WIN LAURELS

COOKING A MEAL

A Camp Fire group under the leadership of Mrs. C. Lauren Maltby met last Wednesday evening at her home on 374 Grove street, where the girls planned, prepared, cooked a meal, and afterward washed the dishes and cleaned up the kitchen. The ability to accomplish all these tasks is one of the requirements necessary to the attainment of first rank.

Participating in the work and general fun were Susan Burnham, Eleanor Pitkin, Jeanne Maltby, Sally Woehler, Ardis Jacobson, Mary Lou Polgreen, Betty Roe, Carole Taylor, Nancy Lorenzini, Betty Ogg and Georgia Cook.

When the date is fixed consult the NEWS printery about wedding invitations or announcements ... printed or engraved.

## Sierra Madre Junior Women Will Stage Melodrama At Monrovia Elks Club

Members of the Sierra Madre Junior Woman's Club are in rehearsal for that soul-terrifying melodrama entitled "Curse You, Jack Dalton," which will be given at the Monrovia Elks Club Saturday evening, November 23, 1941.

While Director Virginia Timberlake and her associate director James Kelleher are busy arranging all the details and putting the cast through their paces, the stage and property managers are busily engaged in building the set and fitting out a wardrobe befitting those famous belles and gentlemen of the glorious '90s.

Members of the cast include

Wesley Perry as "Jack Dalton,"

Arleen Olsen as "Bertha Blair,"

Robert Ward as "Egbert Van Horn,"

"Barbara Heasley as "Ann Alvarado,"

Eloise Parker as the "Mother Dalton,"

Joe Jackson Buller as "Richard Blair,"

Alice Dempsey as "Eloise Dalton."

The can-can girls group finds

Barbara Heasley and her beauties which include Glean Druffy, Jackie Rutledge, Melba Seifert, June Eastwood, Arleen Olsen, Jane Holland and Francis LaLone.

In addition to the drama there will also be the Olio and several fine acts promised which will be augmented by a group of singing waiters. The Elks lodge promises several other surprises to make the evening an enjoyable one.
